

### Komolgorov-Smirnov nonparametric comparison between histograms

Parental telomeres and lentiviral-vector control telomeres	0.013 ± 0.031
Parental telomeres and azide-treated telomeres	0.076 ± 0.026
Parental telomeres and heterochromatin spots	0.517 ± 0.029
Lentiviral-vector control telomeres and WT-hTER treated telomeres	0.199 ± 0.027
Lentiviral-vector control telomeres and 47A MT-hTer treated telomeres	0.269 ± 0.025

K-S score between histograms

K-S error within each histogram
